

NATURAL CAUSES

Inquest Over the Death of Alfred Cunningham.

The funeral of the late Alfred C. Cunningham will take place Friday afternoon at 2 o'clock in the Eagle's hall under the auspices of that order. The father of the deceased arrived this morning from the east on belated No. 3.

Coroner Updike held an inquest over the remains yesterday morning and the following verdict was rendered:

"We find that the deceased came to his death from natural causes." The jurors were F. S. Johnson, T. M. Branton, L. Gentry, D. W. Cutts, L. J. Haslund and John Hawthorn.

Richard Himself Again

Uncle Dick Nash has been enjoying a touch of high life ever since he was elected police judge of this village. He cut the brass buttons off his blue clothes and was content to be a civilian but the longing to be again on the force is of late a passion almost too strong to be resisted. It came to his knowledge yesterday that some sneak thieves are in the habit of swiping incandescent globes from the subway. Uncle Dick has arranged to spread his blankets in the subway and camp there outside of his regular working hours in order to apprehend these evil doers.

The Robbery Case

Walter Say, who was arrested at Winnemucca and brought back here to answer to a charge of robbery, was arraigned before Justice Nash Tuesday and his preliminary examination set for next Tuesday at 10 o'clock. The accused has retained Lelshman and Stingley to conduct his defense.

Formed a Partnership

G. P. Roberts and John Alderson have formed a partnership in the plastering business. Both are union men and will employ none but union workmen. Their ad will appear in The Journal in a few days.

THE RENO WHEELMEN

Preparations Being Made for the Summer's Work.

The devotees of the silent steed have aroused from their winter's lethargy and are preparing plans for a summer campaign that will lay all other seasons in the deep, dark shade.

Relay racing is far from being a lost art. It will be the great and only proposition worthy of consideration by the members of the Reno Wheelmen's Club. All the members of the '92 team, with possibly two exceptions, are anxious to make this year's team. There will be hard practice work and lively try-outs.

There is some doubt as to whether the race with San Jose, which will open the season, will be ridden here or in prunedom. The Reno Wheelmen made a concession last season when they rode the race that made them has-beens for a time, and San Jose will doubtless prove as liberal. But no matter whether the Garden City's ride here or we ride in San Jose, victory will perch upon the banners.

Wednesday night of next week will be the date set for the next regular meeting of the club. Two weeks later a meeting will be held for election of officers. Already bees are buzzing in a number of bonnets.

A committee has been appointed to procure badges for the members of the relay team. They will consist of the club emblem, pendant to which will be a gold bar for every race won and a silver bar for every race lost. Some of the boys will have quite a string of bars, as many as a dozen.

A donation party is on the tapis. It will be held in the club house on the evening of the 27th. No admission will be charged, but every guest will bring a gift, large or small, for the club. The idea is a novel one and will doubtless take well.

HIS FOOT INJURED

Harry Hunter Meets With a Painful Accident Yesterday

About noon yesterday Harry Hunter had his right foot injured by slipping from the stirrup of a box car that he was riding down the yards. A wheel of the forward truck of the car passed over his toes and gave the instant a bad squeeze.

Dr. Thoma, who was one of the physicians called to treat his injuries, expressed the opinion that a couple of his toes may have to be amputated. Harry was placed aboard the second section of No. 1 and taken to the railroad hospital.

Progress of the Suit

The water case on trial in the District Court is steadily drawing toward a close. The plaintiffs rested their case at noon yesterday, and the defendant introduced the testimony of Surveyor Stewart and William Thompson.

REPORT OF COMMISSION

Coal Miners Win Practically on All the Points

Special to The Journal:

WASHINGTON, March 18. — The final report of the anthracite coal commission was placed in the hands of the President tonight. While it will not be made public until Saturday it was announced that the members were unanimous in the findings.

From a reliable source it is learned that the men win on practically all points. They get ten per cent increase in pay, and the new system of weighing coal will result in still further increase. The men are also given a check clerk to keep a record of the coal weighed. It is provided in the report that any further troubles are to be settled by a conference between the men and their employers, which is a practical recognition of the union.

SAN FRANCISCO STREETCAR STRIKE

All Hopes of Peaceful Settlement Has Been Abandoned, and Trouble Is Expected

Special to The Journal:

SAN FRANCISCO, March 18. — All hope of a peaceful settlement of the trouble between the street car men and the company is abandoned, and it is likely the entire system of the United Railways will be tied up. The reply of Manager Chapman to the demands of the men is due at 10 o'clock tomorrow morning. If the demand is refused, as is almost certain, a strike will be ordered. This power has been given to the executive committee of the union.

TREASURE IS FOUND

Wreck Of Golden Gate Located Off Coast Of Mexico

Special to The Journal:

SAN FRANCISCO, March 18. — The resting spot of \$600,000 in gold coin and bullion that went to the bottom of the Pacific with the wreck of the Pacific mail steamer Golden Gate, near Manzanillo, Mexico, in 1862 has been found by C. W. Johnson, a Boston contractor. He arrived here today in the steamer Newport. Johnson succeeded in getting some gold pieces from the wreck but storms prevented him from reaching the strong room of the hulk.

March of Progress

The old shacks on Virginia street are steadily going. Some are being demolished and others removed bodily in order to make room for handsome brick blocks.

A Person Talked About

In the latest issue of Leslie's under the department head "People Talked About," appears an illustrated setup of the career of Senator Newlands.

IN HALLS OF CONGRESS

Newlands Makes Maiden Speech for Cuban Annexation

Special to The Journal:

WASHINGTON, March 18. — Before adjourning at 7 o'clock tonight the senate entered into a unanimous agreement to vote on the Cuban reciprocity treaty at 3 o'clock. One feature of the day was the maiden speech of Newlands, of Nevada, as senator. He argued against the reciprocity treaty, saying that trusts reap all the benefits from a reduction in the tariff. He submitted an amendment which invites Cuba to enter the union as a state. Spooner attacked the annexation scheme in severe terms.

CONSTRUCTION OF PANAMA CANAL

Syndicate Seeks to Construct Entire Panama Canal, and Wants to Take Work Will Be Done by Contract, but Special to The Journal.

WASHINGTON, March 18. — A syndicate is now in process of formation which seeks to construct the entire Panama canal. This company, which will be one of the greatest in the world, wants to take a contract to complete the work for the government. It is now considered that the work will be done by contract, but whether done by a corporation is uncertain. The formal question is likely to be presented in a short time.

HARD TO KILL

Minor Lives Four Days With Dislocated Neck

Special to The Journal:

ANGELS CAMP, Cal., March 18. — Pozo Pico, a miner employed in the Lightner mine, near this town, has the dislocation of living four days with his neck dislocated, and the physicians say that he has a good chance of recovery. Last Sunday he was thrown twenty feet against the top of a slope and his neck broken. He has been unconscious ever since, but is improving.

PAID FOR PROTECTION

Former Employee Of Government Signs Receipt

Special to The Journal:

ST. LOUIS, March 18. — It became known today that Arnold & Co., the turf swindlers, paid well for protection from government agents. A receipt for \$5000 has been found in Arnold's safe signed by a former employee of the attorney-general's office.

Death of Former Renoite

Charles Gunn, a former Reno boy, died in Sacramento Tuesday of pneumonia. He was aged 32 years and leaves a wife and two children. The deceased was a stepson of Charles E. Chase of this city.

THE MARKET LETTER

Weekly Report of J. F. Condon Company, Brokers.

The past week has been one of little activity in Tonopah stocks on the local market, but from advices received from San Francisco office we learn that there are some sales taking place daily in that city.

Notwithstanding the fact that there has been little doing on the local market, all stocks are holding their own, which shows the confidence the people have in Tonopah securities. Montana-Tonopah after dropping a point or two without any apparent reason has strengthened up again, and is commanding from 90 to 95 cents at the present time.

The Great Western is about to install a 25 h. p. engine for sinking purposes, and their stock is held firm at from 15 to 16 cents.

Midway is held very closely, and a strike in their property may be looked for any day now, when their stock will undergo a decided advance, as it is well placed, and in strong hands. This company's shaft is now down 300 feet.

The Gold Belt Mining Company have just listed their stock on the exchange here, and their stock is quoted at from 25 to 30 cents. This company has very promising property.

The Golden Crown stock is held very close, and there is very little of it offered for sale at any price.

The Hasbrook strike at Gold Mountain is still the talk of the town, and the future of Gold Mountain looks brighter than ever before. All the companies in that district are putting forth their best endeavors in sinking and drifting, and the news of some new strikes may be expected from there at any time.

Yours very truly,
A. J. CONDON & CO.

DEATH OR VICTORY

College Girls Depart To Win Basketball Honors in California

On No. 3 last night the University of Nevada basketball team departed for California where they will play the Mills College team Friday and the Alameda High School team Saturday. Both contests will take place on the Mills College grounds.

Following are those comprising the Nevada team:

Jeanette Cameron, center; Ollie Weathers, right side center; Lillian Esden, left side center; Adolphina Finck, guard; Maud Warren, left guard; Carrie Allen, right guard; Laura Arnot, goal; Elizabeth Cook, right goal; Catherine Hand, left guard. Florence Kent—Manager. Substitutes—Ollie Wise, Nettie Kerby, Elizabeth Rammelkamp.

BRUTALLY ASSAULTED

Joe Kilcline Is Knocked Insensible With a Pistol.

A crime was committed in Reno last evening about 6 o'clock that may assume the proportions of murder. The victim is lying in a crib in Love Lane with a badly damaged skull, and the man charged with striking the terrible blows is in a cell, awaiting the result of the privilege of bail the result of his victim's injuries.

The trouble occurred in what is known as No. 12 on First street. Kilcline and several others were in a room discussing the arrest of the former. Kilcline said that he would have gotten away if it had not been for a stool pigeon.

When asked whom he meant, he said, "Tex."

The man known as "Tex," but whose name is Perry, an importation from Cripple Creek, was in an adjoining room. He rushed in and struck Kilcline twice over the head with his gun. Another blow was received on the arm by a woman present.

Kilcline was knocked insensible, and had not recovered consciousness when The Journal went to press. An hour later Officer Messey arrested "Tex" in a Commercial Row saloon and escorted him to the county jail. Owing to the dangerous nature of his victim's wounds bail was refused him.

Excellent Outlook

A Journal reporter was informed yesterday by a local bank official that the financial outlook here is very promising. The buildings planned for this season will cost upwards of a million dollars. Money is easy at the prevailing rates of interest. The mortgages incurred are nearly all for the purpose of building or other improvements.

Looking For Investments

J. D. Baker, a prominent mining man of Chicago, spent yesterday in this city and went west last night. He was here looking into the merits of several mining properties near this city. Mr. Baker has an option on the Gardner mine near Carson.

CORRESPONDENCE

Social Chat on Timely Topics from the Pen of Madam On Dit, our Regular Correspondent.

San Francisco is looking forward with a degree of warm interest to the arrival of Admiral Schley and his party, who are at present in Santa Barbara having the most delightful of times. The Admiral has been on this coast several times during his eventful life and has a number of warm personal friends who will only be too glad to welcome him again to San Francisco.

Next month we shall have with us for a few days General Leonard Wood, who will be on his way to the Philippines. He has a warm hold on many of our people here for he was, with his young bride, stationed out at the Presidio some fifteen years ago, when he was a young lieutenant and before honors galore had crowded upon him. Mrs. Wood is a niece of the late Associate Justice Field, and was a Miss Condit Smith of Washington. Several years ago her younger sister married Richard Hooker, a grandson of Senator Stewart of Nevada, and the two are now in the Philippines, while the maternal grandmother, Mrs. Condit Smith, has their little child, as it was deemed best not to take it to the unknown climate of the remote islands.

Mrs. Condit Smith, by the way, is a sister of Mrs. Andrew McCreary, whose husband owes the colossal fortune to the rich and early quartz of your state, his being, I think, one of the first large fortunes made in Virginia City. Sandy Bowers and Andy McCreary were among your pioneers and were contemporaries. The latter was an Irish porter in San Francisco in the fifties and is not ashamed to remember it with a good deal of honest pride and pleasure. Among the early boarding house keepers of San Francisco was Mrs. Swerlingen, with four fine looking daughters. One became the wife of Judge Field, another the wife of Col. Condit Smith, a Washington millionaire, a third of Mr. George Whitney, the fourth of Andrew McCreary, each one becoming prominent in the different places where their lots were cast. I wonder if there is any land on the face of this broad globe where fortunes are so varying. I think not. Take San Francisco, for instance, twenty-five years ago. The names of the people who head it today were absolutely unknown, and they who did lead have either crossed over or Dame Fortune, with relentless vigor has thrust them into obscurity.

Mrs. Charles Alexander, Miss Hattie Crocker that was, is in San Francisco just now at the old Crocker home. Among all of the women who have gone away from us there is no one who retains her old time popularity as does Mrs. Alexander, and the welcome she receives is always tinged with the warmest affection. No matter what honors are heaped upon her, what attention she receives, she returns to her old home perfectly unaffected and unchanged, glad to be liked and to like. She is wearing a dark green velvet suit with a hat to match, both of which become her glorious hair, which shimmers all the way from bright yellow to red. Burlingame is ready and anxious to do honor to Mrs. Alexander for her hospitality in New York to traveling Californians.

There is some talk about further trouble between General Otis of Los Angeles and his belligerent brother editor, but I shall be very much surprised if anything more is heard of it. I have yet to hear the first word of sympathy expressed for General Otis. He was a fine officer. He is an honest man, but he possesses the unenviable faculty of antagonizing the world at large on every proposition. To women he is particularly hard and domineering, and it is said if a woman goes to him for work or assistance of any kind, nine times out of ten she comes away with a heavy heartache feeling that the world is a hard place.

This week is a very busy one socially, the mi-careme Spreckels ball being the most important function. The Spreckels house is superb and built with special reference to entertainment, with a magnificent ballroom opening into several other charming rooms, while the whole center floor is arranged so it can be used as one if necessary. The main hall is magnificent and fit for a palace. I doubt if many palaces are as spacious or as massive. There are two daughters in this branch of the family, and I would consider myself in comfortable circumstances had I a dollar for every suitor who has essayed to win these heiresses. The youngest member of the family is a son just twenty-one who married Miss Huntington early in the season, and the two have gone to housekeeping in the simplest way imaginable. Mr. Spreckels says he wants "Jack" to understand he has his way to make.

He, but owing his first allegiance in the west to Nevada, where, in the early days, he was quite a character in Virginia City. He started there as a butcher when he was in his twenties and soon made a unique position for himself, his shop being a sort of rendezvous for many of the bright men of every vocation—lawyers, doctors, mining men, etc. He has made a comfortable fortune in Utah, sold out and invested in a beautiful orange grove in Los Angeles, where he proposes spending most of his time.

Among the Salt Lakers who will be in San Francisco shortly are the McCormicks, who are among the most prominent people financially in Utah.

Mrs. Charles Alexander is being feted during her brief stay here in a way that speaks well for the hold she has upon her old home.

Among our eastern visitors this week will be the Hurton Harrisons, Miss Mary Crocker that was, and the George Crockers, who find their way to the coast nearly every spring.

Mrs. Oscar Fitz Allen Long, the daughter of Mr. and Mrs. Isaac Requena, are expected here shortly, so one by one the wanderers return, each and all retaining the very warmest places in their hearts for our "city of the sunset sea," as Joaquin Miller styles it.

C. Allen, father of L. Allen, Lieutenant-Governor of Nevada, is visiting his youngest son at Oak Park, near Sacramento.

The welcome accorded Mr. and Mrs. Francis G. Newlands in Washington has been most gratifying, and invitations have fairly been showered upon them, most of which they have declined, as Mr. Newlands is exceedingly busy engrossed by the many questions of import which confront our new senator. Of no woman in the capital are so many charming things said as of the well known Mrs. Newlands, who in the midst of her gay, brilliant life, with all of its exactions, always finds time to stop and give a cup of cold water, the kindly word and to lay her dear, womanly hand upon the aching heart. There are not many such as she. If it were so, the world would be a better place and life less bitter.

TAKING DESPERATE CHANCES

It is true that many contract colds and recover from them without any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality and makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of colds, can be had for a trifle? For sale by S. J. Hodgkinson.

Words of Farewell That Are Heartily Appreciated.

In the Winnemucca dailies that arrived yesterday the following mentionings were made of the new city editor of The Journal

W. M. Gotwaldt, for the past four months editor of the Silver State, departed for Reno on No. 3 last evening. Mr. Gotwaldt returns to his old love, the Reno Journal, having accepted a position as city editor of that excellent paper, which has made such rapid strides to the front of Nevada journalism. Mr. Gotwaldt leaves here with the best wishes of the large circle of friends which he made during his stay in Winnemucca, to which the Standard editors add their congratulations on the promotion he has received and the hope that his newspaper work in Reno may be both congenial and successful.—Standard.

William McClure Gotwaldt has resigned his position as editor and manager of the Silver State and has accepted a position on the Reno Journal, the leading daily of western Nevada.

Mr. Gotwaldt has done much toward the betterment of the Silver State and the entire typographical force regrets his departure.

Mr. Gotwaldt will undoubtedly make a great change in our sister paper, The Journal, as he is a wideawake news gatherer and an all-around newspaper hustler.

William Gotwaldt took charge of the Silver State some three months ago, and has since increased the size from four to six pages.

Mr. Gotwaldt departed last night on No. 3. The Silver State says goodbye and good luck to you, "Got."—Silver State.

A TOKEN OF APPRECIATION

Superintendent Holman Is Given a Happy Surprise.

Just a year ago Hebe Holman, one of the best "hot water" miners that the old Comstock ever produced, accepted the position of superintendent of the Desert King mine.

Several days ago the boys thought it would be right and proper to show their appreciation for Mr. Holman, who is now superintendent of the entire group of mines at Wedekind. They clipped in and purchased a handsome gold-headed cane.

It was presented to him Tuesday night. All the members of Wedekind Miners' Union and a number of other people were present, including Governor Sparks.

After the presentation of the cane and the little speech of acknowledgment, the hall was cleared for dancing and the miners and their ladies tripped the light fantastic.

GOOD TIME AT VERDI

A Social Given In Honor of Good Old St. Patrick.

The Baptist church folk of Verdi, of whom there are a host, assembled in the hall Tuesday evening and paid tribute to Ireland's patron saint.

There was a long and interesting program, nearly every number of which related to the land of the shamrock.

Refreshments were served and games and conversation were the order of the evening. The sum of \$30 was cleared for church purposes.

Painful Accident

Chester, a son of W. C. Short, was painfully injured Monday at the Short ranch. He fell from the sweep of a horse power while it was in motion and caught his foot between two cog wheels. The attending physician says he is doing nicely and will probably escape the necessity for amputation.

What Is Being Done in Furnishing Public Utilities.

It looked like a general conflagration, but a nearer view showed that it was simply the flare of innumerable incandescents. "Men, like moths, are attracted by a glare," says our friend Byron. A Journal reporter drew near the scene of the illumination and was ushered into the presence of Financial Secretary Bechtel of the Nevada Power, Light and Water Company, a gentleman whose adipose alone makes him a fit representative of a "bloated monopoly."

Mr. Bechtel is not seeking any notoriety for his company, but he is willing to answer pertinent questions, especially if they are asked in the true spirit of the knowledge seeker.

From time immemorial it has been the accepted custom to rail at corporations, monopolies, syndicates, trusts and everything else that we socialists don't own ourselves in fee simple. Before we criticize the company in question it might be just as well to post ourselves on the facts at issue.

"Is the company keeping pace with the growth of the city in the matter of water mains?"

"We are doing everything Mr. Journal, that we can to supply every portion of the town with water under pressure adequate for fire purposes even at the time of a general conflagration. At present we are relaying mains all over the city, putting in larger pipes. The main on Mill street is being extended five hundred feet. It will be laid as far as the new brewery and will be large enough to accommodate the dense population and large demand we expect from that neighborhood before another year passes."

"The Mill street main is also being extended to the city limits. A large pipe is being laid on State street. In the course of a very short time we will have all the old mains replaced by larger pipes."

"As to the gas plant, we are moving in that matter as rapidly as possible. A meeting of the stockholders in the company is being held today in San Francisco. They will decide whether to reconstruct the old plant or build an entirely new one. I am in favor of the latter. If this action is taken the plant will probably be located close to the Southern Pacific tracks, in order to obtain crude oil, which is being considered for use in making gas."

"The present mains will then be replaced by new ones or used as laterals. They have nearly all been laid since 1877."

"As to the plans of the company regarding the water supply, I may say that the pumping system will not be used. Considerable money was expended during the past season in drilling wells, but the supply will not prove adequate. At present rate of usage the reservoir, which contains 20,000,000 gallons, would be exhausted in about three days."

"During February more water was used than ever before in the history of the city. This was due to taps being left open to prevent freezing. The mains that froze and burst were all the old ones laid by the former company. The new mains stood the test of the extreme cold. All the old mains will be replaced as rapidly as possible."

"Since the pumping system is to be abandoned the company will at once begin to install an extensive and costly set of filters that will give Reno a pure, clear water supply."

"Daily the electric lighting system is being extended. The company is connecting all buildings where the wiring is in conformity with the rules necessary for safety. It does not matter whether the company does the wiring or not."

"It is rumored that the Truckee River General Electric Company will in a short time replace its flume at Mystic with one of twice the present capacity and then there will be a large increase in the uses to which electricity is put at present."

Got On a Limb

An amusing incident occurred in Justice Nash's court Tuesday. A gentleman from Stone's camp came to town to "get a padlock for his door." He was suddenly taken dizzy and was haled before the Great Presence.

"My name is White, y'r Anner. It being St. Patrick's Day, I admit taking a drop too much."

"How comes it that you give the name of White when you carry a dud-keen in the band of your hat? White isn't an Irish name."

"Sure, Judge, far be it from me to disgrace a good auld Irish name by speakin' it in a police court."

A green ribbon was produced; it was pinned to the prisoner's coat and he was sent on his way rejoicing.

BEFORE THE GAVEL FELL

Concluding Business of the Latest Nevada Assembly.

The twenty-first session of the Nevada legislature closed Tuesday afternoon. This session has not been especially worthy of praise or condemnation, says the News. It has been rather passive. Some very much needed laws were ignored, and some had ones were added to the statutes, but all in all there was no vicious legislation and no "cinch" bills. The members were a pleasant lot of gentlemen and say they will long retain pleasant memories of this city and her people.

IN THE ASSEMBLY

Senate concurrent resolution, No. 16. Authorizing five thousand copies of new incorporation bill to be printed. Passed.

Senate concurrent resolution: Relative to adjournment. Resolved, by the senate, the assembly concurring, that this, the 21st session of the Nevada State Legislature be adjourned sine die at 12:30 o'clock p. m. today. Adopted.

Mr. Denton moved that a committee of three be appointed to notify the governor that the assembly will adjourn sine die at 12:30 o'clock. Carried. Messrs. Denton, Cooke and Cushing appointed as committee.

Mr. Cooke moved that a like committee be appointed to notify the senate that the resolution had been adopted. Carried. Messrs. Burke, Littrell and Riley of Humboldt, appointed.

The committee appointed to notify the governor reported that they had performed that duty, and had also learned that the governor had no further communications to make, except to convey his congratulations and good wishes to the members of the 21st session of the Nevada Legislature. Mr. Cooke arose to a question of privilege and presented with fitting remarks a token of respect in the shape of a gold handled cane to the speaker from the members of the assembly. Mr. Wilson responded, thanking the assembly for the gift.

Speaker pro tem Denton was called to the chair and Mr. Noteware presented him with a cane. Mr. Denton thanked the members in a fitting address.

Mr. Cooke, on behalf of the attaches presented the chief clerk, Mr. Clark, with a token of their esteem. Mr. Clark made a graceful speech of acknowledgement.

A resolution by Littrell praising the speaker for the able and just manner in which he had presided over the house was carried.

Cushing presented a similar resolution thanking Speaker pro tem Denton which was adopted.

Mr. Cooke introduced a resolution thanking the people of Carson for their hospitable treatment accorded the members of the legislature. Carried.

Resolutions by Messrs. Syphus and Graham thanking the chief clerk and attaches adopted.

Adjourned sine die at 12:30 p. m.

Demanding Jury Trial

Kilkline, the man accused of stealing a ring, was arrested by Constable Wilson and Deputy Hagerman in Verdi at 4 o'clock yesterday morning. He was about to leave for the west on No. 3, having driven up from Reno. The woman with whom he consorts was also on the train. Kilkline was brought back. He had a hearing before Judge Nash, and the case was set for Friday at 2 p. m. The defendant has subpoenaed Chief of Police Brown and all of his men to prove his good character.

Name One in Ten

The town is quiet. There are few strangers here. These are sample sentences you may have heard. The next time anybody tells you anything like that make a bet with him that he cannot correctly name one person in every ten that passes him on the street. Unless he is a reporter or a policeman he will lose his money.

He Will Recover

The many friends of Ben Timblin will be pleased to learn that the mental malady which recently overcame him is yielding to medical care. It was the result of nervous prostration, and it is thought that he will soon be as well as ever.

Will Visit the East

Mrs. John Sunderland Jr. and Miss Anna Sunderland will leave the latter part of the month for Chicago, where they will visit Mrs. Sunderland's parents, Mr. and Mrs. J. C. Stubbs. They expect to be gone about six weeks.

DR. RADER ON NEGRO APPOINTMENTS

A SHORT time since the Rev. William Rader delivered in San Francisco a very sensible sermon on the race question in the South, that is to say his conclusions were sensible even while the soundness of his reasoning on some of the points covered may be at least doubtful.

Referring to Senator Tillman's statement that the people of the North do not understand the negro question, Mr. Rader said:

"Senator Tillman must not suppose that we in the North are ignorant of the negro. We have an immense population of them here—in Kansas 52,000, in Indiana 58,000, and in New Jersey, Illinois, Ohio, New York and Pennsylvania 407,000. In Boston is a black population of 12,000, in Cincinnati 15,000, Indianapolis 16,000, Pittsburgh 17,000, Chicago 30,000 New York 61,000 and in Philadelphia 63,000."

The foregoing figures look somewhat formidable when viewed in the abstract, but after all it should be remembered that large as they seem to be, they constitute but a very small fraction of the population of the states and cities named. The negroes are not numerous enough anywhere in the North to dominate the whites politically under any conceivable circumstances. Everywhere north of the Potomac and the Ohio the negro is ignored both politically and socially by those who assume the greatest indignation over his alleged wrongs in the South. The Republicans never dream of nominating a negro for any elective office, and it is seldom that a member of that party will recognize a black man as a social equal, except in a theoretical way. The Republicans of the North seek to hold the negro vote by constantly harping upon the condition of the colored race in the South.

The northern man can only comprehend the question in that section by putting himself in the southern man's place. Dr. Rader seems clearly to appreciate this, for a little further on he says:

"President Roosevelt gave a dinner to a negro, and shocked the South. He appointed a Custom House officer from the negroes at Charleston, and the senate refused to confirm the appointment—our own Senator Perkins voting against it—and he appointed a postmistress by the authority of the government, against the will of the southern whites, in a Mississippi town, and a paper in New Orleans talked about war. We have the spectacle of the President of the United States trying to force a negro through the thick wall of southern prejudice. Will the wall break, or the negro be crushed, or the President quit? The President is not in the habit of quitting, and the wall increases in solid strength. The negro will be crushed. Does the President know that on the other side of that wall is a sleeping lion—and southern rifles and sectional trouble? Ideally he may be right in his strenuous endeavor to thrust negro office holders against white prejudice, but thoughtful men throughout the country are beginning to doubt the practical wisdom of his course."

There is a world of truth and sound philosophy in this. The question cannot be dealt with in a theoretical way. It is a practical one in all of its phases. It is idle to argue in the abstract that the negro is as good as the white man and should be treated the same, for not one white man in a hundred or a thousand, North or South, is willing to shape his course toward the negro in accordance with that argument. Most whites will concede the negro's right to life, liberty and the pursuit of happiness. Where the negro vote is comparatively small the whites generally concede the black man's right to cast a ballot and have it counted. But in no section of the country are the whites, as a class, willing that the negroes should rule.

We may call it prejudice, or whatever we please, but it is a cold fact, nevertheless, that everywhere in this broad land the negro race is regarded by the whites as inferior. In the South the personal feeling of the whites toward the blacks is more kindly than in the North. It is undeniable that when a former slave needs a friend the first man he usually turns to is his old master or that master's son. But neither of these is willing to accept that former slave or his son as either a political or social equal. To do so means the preeminence of the blacks wherever they claim to be numerically superior. Under such circumstances they will not only control the administration of local government, but they will also naturally push themselves forward socially in a manner very offensive to the average white person of either sex.

These are the cold facts of the situation, and therefore it is manifestly unwise for President Roosevelt or any chief executive to wound deeply the feelings of the entire white population of the South by forcing obnoxious negro appointments in that section. Such a course simply embitters the whites and by so much, retards the progress of the blacks.

PIERCE MORGAN has gone to Cuba to reorganize the railroad system of the island. This means that all the railroad lines in Cuba will be brought under one management, that some one else will put up the money and that Morgan will be paid several millions for working up a scheme whereby the Cuban public will be compelled to pay freights and fares a good dividend on heavily watered stock.

THE late decision of Judge Grosscup of Chicago in the meat case has caused consternation in every nook and corner of trustdom, and unless he is reversed by the supreme court of the United States, he has discovered a way of squelching the trusts. While Congressman Littlefield and other renowned trust-busters have been overworking their brains trying to discover some new law by which to disrupt the trusts, Judge Grosscup "busts" them with the old law which he declares is ample for the purpose. The trusts will now place their reliance on the supreme court of the United States, and judging the future by the past, it will be well placed. If Judge Grosscup keeps on the road he has started he will become a great and commanding figure in public affairs. The people generally will watch the supreme court's conduct of this matter with intense interest. That court shook the public confidence when it declared the income tax unconstitutional. It would be extremely unfortunate for it to render another decision that would bring that high tribunal under suspicion.

POINTED PARAGRAPHS

(From The Commoner)

Nothing else became the last congress so well as the taking off thereof.

Ohio was one hundred years old on March 1—really old enough to know better.

If you want to see a confirmed pessimist just tell a schoolboy that Memorial day falls on Saturday this year.

Why should banks be the only ones privileged to borrow government money on state and county bonds?

Large families and trust prices for groceries, meat, clothing and fuel do not make an attractive combination.

Mr. J. Pierpont Morgan is visiting in Cuba. If he likes the island he may wear it home on his watch chain.

What this country needs is a Democratic congress that no millionaire trust magnate will waste time sending telegrams to.

After the exhibition made by the last senate how can any sane man object to the election of senators by direct vote of the people?

The principal thing accomplished by the Fifty-seventh congress was to demonstrate that if the people expect any legislation in their interests they should elect a different kind of congress.

Some newspapers that make no pretensions of being humorous are now publishing articles on "The work of the Fifty-seventh Congress."

The Presidential explanation concerning southern appointments reads wonderfully like the "I ain't been a-doin' of nothin'" explanation of the small boy at school.

Attorney General Knox now has a fund of \$500,000 with which not to prosecute the trusts any more than is necessary for campaign purposes.

A Republican organ expresses wonder at the extreme slowness of news transmission in Washington's time. A whole lot of good things written in Washington's time has not reached the Republican leaders even to this day.

SENATOR HOAR doesn't vote as he shoots—"off his mouth." His sentiments are all right or would be if he would carry them with him to the ballot box. He lately delivered an address at Washington in which he urged the people to fight against taxation without representation, condemned the lust for empire, and the subjugation of a weaker people. His remarks would have been more forcible however, and certainly more consistent if he had supplemented them by urging his hearers to vote against the party that is responsible for the evils of which he complained.

ONE of the United States senators elected in Delaware makes no bones in admitting that he is only in the senate to keep the seat warm for Addicks. He is at least entitled to credit for his candor, whatever may be said of his lack of decency in advertising a fact so degrading to his own personality.

Here Are Some of the Convincing Facts That Caused us to Take the Agency for the Fulton Compound, the First Things Known that Cure Chronic Kidney Diseases.

First, let it be distinctly understood that every one of the cases below had been diagnosed by one or more physicians as chronic and incurable; second, note the certainty of the results as shown by the recovery also of the friends they told who were similarly afflicted with supposed incurable kidney diseases.

N. W. Spaulding, President Spaulding Saw Co., San Francisco, had a recovery in his own family and told several others who recovered. Joseph W. Cook, capitalist, San Francisco, recovered himself and told two friends who recovered.

Dr. Carl D. Ziehl, pioneer druggist, 522 Pacific street, San Francisco, recovered himself and gave it to more than a dozen patients who recovered.

Charles Engelke, editor of the German paper, San Francisco, recovered himself and told it to a number who recovered, one of them being Charles F. Wacker, the Sixth street merchant.

R. M. Wood, editor Wine and Spirit Review, recovered himself and told it to several who recovered, among them being an old-school physician.

Edward Short of the San Francisco Call recovered, also three of his friends. William Martin, Captain Hubbard of the Honolulu route and William Hawkins of the U. S. Quartermaster's Department of San Francisco.

John A. Fisher of the Hotel Repeller, San Francisco, and two of his friends, etc. etc. The kidneys are the sewers that strain the poisons out of the system. We can stand the arrangement for a short while, but when the interference becomes chronic (permanent), as first explained by Bright, it is only a question of how long before death will ensue. It is then called Bright's Disease and is incurable. All kidney troubles develop into this form about the 8th to 10th month. The above cases were incurable by all other known means. People having kidney disease should begin at first with the only known thing that will cure it if it has reached the serious stage. The local post of the Volunteers of America will celebrate the seventh anniversary of their organization at their hall on Virginia street tomorrow night with a special program of addresses, literary exercises, singing and a banquet.

Captain James will be host, and the many friends, both those who have heard them on the street and in their hall, and those who have also assisted them in their work with money or with sympathy and voice, are cordially invited to come and enjoy this annual celebration with them.

Here is a little inkling of the program for Friday night: Captain James will preside and give an address, Rev. Robert Whitaker will speak, also H. F. Evans, president of the Young Peoples' Society of the Baptist church. There will be other literary exercises and a lot of special music by the Driver quartet, giving three or four numbers. The Young Peoples' Societies of several churches have been invited and it is expected they will be there in considerable numbers. After the exercises lunch will be served and a general good social time enjoyed.

The people of Reno ought to appreciate the presence in our city of a branch of this organization which has, during the last seven years, organized bands and preached and sung the gospel on the streets of nearly every American city. They have fed many thousands of hungry men and picked from the gutter of dissipation thousands of friendless sinners and led many of them to a new life of hope and usefulness. They have gone into the slums of our cities and the neglected places of our land and gathered up the homeless and forsaken children by the hundreds and placed them, at their own expense, in homes of their own providing. They have gone into our jails and prisons and proclaimed the message of sympathy and pardon. They have also organized leagues of hope and promise for those in despair. They have in their ranks many of the most self-sacrificing, hard working men and women in any calling in life in this hard working world of ours.

Don't forget the time and place of this anniversary and don't forget to come—Volunteer hall, Friday evening, March 29th, 1903.

Don't forget the Diamond.

Wants a Correction
(Communicated)

An apology to the Evening Gazette writer for not asking his advice before giving the mask ball on St. Patrick night. The man who needs the money would have been saved, no doubt, the annoyance of rubber necks who do sometimes come around such places and, as they also need a little money in their way get sore when the "guards at the door" ask for money.

The Gazette office was given two comps and had they wanted more would certainly have got them. It seems that the Great Mogul was overlooked entirely and, begging his highness' pardon, will see it doesn't occur again.

Acknowledging I owe a small bill to the office, which I will pay when presented deducting the price of admission for Rubber Neck.

Respectfully,
(The Outsider)—Prof. Hopen.

Glasgow, March 16—Interviews that "The Examiner" correspondent has had with experts best qualified to judge of the racing qualities of Shamrock III, which will be launched tomorrow afternoon, indicate their absolute confidence that the yacht is the best ever built on this side of the Atlantic. The correspondent has witnessed the growth of the boat from the garboard strakes upward and can testify that as a piece of shipbuilding it could not be excelled.

Many ideas both in design and material are embodied in the new challenger, which is certain to prove a surprise to Americans. While not permitted to measure the yacht, the correspondent was allowed carefully to inspect it in the shed where it stands complete for tomorrow's plunge. It is a beautiful creation, trim and racy to the last degree, and there is little wonder that those who best understand the qualities of the boat expect victory.

Shamrock III is not at all patterned after Constitution or any other American boat. It is thoroughly British, both in conception and execution. It is shorter over all than the preceding Shamrocks or the Valkyrie III. There has been no attempt to bid for light weather qualities as was done in the case of its predecessors.

The yacht is about twenty-five feet beam with a draft of a little more than twenty feet. It would seem that the yacht's only defect is its probable inability to do well on a broad reach. Consequently, patriotic British hope that the American winds will be dead ahead or dead aft. Steel, instead of manganese bronze, is the material that has been used, and the bracing of the hull is almost exactly like that of former Lipton challengers.

Large numbers of people are gathering from all parts of the country to witness the launch of Shamrock III. Sir Thomas Lipton is on the ground with a great company of Irish, English and American friends.

New York, March 16—Fred Foster the turf man, has received a cablegram from his representative in Germany saying that he had bought from Mr. Foster the Brooklyn handicap winner, Dr. Rice. Dr. Rice was once before owned by Foster, who sold him to Baron Belinsoeder, the Berlin banker. The recent deal of the Baron caused the offering on the market of all the Baron's horse interests except those horses in training who must finish their German racing engagements. The cablegram further said that Dr. Rice had been shipped to America.

New York, March 16—George Sutton the handless billiardist and Thos. J. Gallagher, the leader of the short-stop players in America, have been matched. Gallagher has consented to give Sutton a handicap of 300 points in a five night game at 14-inch ball line billiards. Gallagher playing 1,500 and 1,200 for Sutton. The contest will be begun this evening.

Stanford University, March 16—The mid-semester reports of the faculty committee on scholarship are out today and as a result Stanford is minus seven students, two of whom are considered the best athletes in their separate lines that ever entered Stanford.

Shortstop Crawford, of the varsity baseball team and Lloyd Turpin, the crack freshman sprinter from Lowell high school are dropped.

Crawford was beyond a doubt the strongest man on the varsity team.

The San Francisco Striped Bass Club at a meeting held last Wednesday evening decided to appeal to the state board of fish commissioners with the request that the commissioners take action to stop the pollution of the water of San Francisco and San Pablo bays by various oil refineries and oil-burning vessels.

Race Track Philosophy
It's not the hat that makes the man, but it's not the cap that makes the jockey.

To watch the antics of some "experienced" riders at the finish brings to mind the old adage to the effect that some men couldn't write a poem with a diamond-studded pencil.

The get-rich-quick concerns must have thought that the road to wealth was paved with gold bricks.

The stable tip is sometimes only a stall.

The desire to win all of the money in the betting ring in one day can be classed as one of the eccentricities of racetrack genius.

Where the race horse is "fired" the jockey is tired.

Never go to sleep during the pro-

gress of a horse race. Folks might think you were trying to shut your eyes to misfortune.

It may be the last straw that breaks the camel's back, but it's the last bet that breaks the horse's backer.

The reason that there are no female jockeys is because if there were it is a safe bet that they would stop to talk while a race was being run.

The whipsaw is mightier than the whiphand.

People Were Pleased

The auditorium was crowded last night with people to witness the moving picture show of Beaty Bros. It is very seldom that a company receives the flattering reception accorded these entertainers, and there was no complaint to offer when the last picture was flashed on the canvass.

The phonograph concert opened first and was entertaining to all who heard it. There was but a short wait before the pictures appeared. In them were so many good things that it would be impossible to specialize.—Union and Herald.

GRIP REMEDIES IN GREAT DEMAND

When colds and grip are prevalent the quickest and surest remedies are in great demand. Joseph D. Williams, of McDuff, Va., says that he was cured of a very deep and lasting attack of la grippe by using Chamberlain's Cough Remedy after trying several other preparations with no effect. This remedy has become famous for its cures of colds and la grippe and can be depended upon with implicit confidence. It prevents any tendency of those diseases toward pneumonia. For sale by S. J. What the People Outside of Reno Are Doing

The Tonopah Miner has been en-
 larged to six pages to make space for
 increased advertising patronage.

Rev. J. M. Donaldson, formerly
 pastor of the Elko Presbyterian
 church, died at Vesta, Minnesota, re-
 cently.

Elko officers are clearing the town
 of vagrants, most of whom belong
 the class of beings who live off the
 earnings of fallen women.

William White, a miner, working
 for H. J. Thompson, at Cottonwood,
 had a narrow escape from death a
 week ago Friday. He had gone up
 the canyons prospecting and stepped
 into an old tunnel. He did not no-
 tice the shaft near the mouth of the
 tunnel and fell down it a distance of
 forty-five feet striking on his head.

An automobile line is to be operated
 between Ely and Wells.

NOTICE

We have found it necessary to con-
 form with the rules laid down by
 the Pacific Association governing the
 credit system of laundering.

Our many patrons will therefore
 please take notice that commencing
 Monday, March 16th, our drivers will
 demand payment of laundry at time
 of delivery. This rule is not meant to
 apply to hotels, restaurants, barber-
 shops or any customer with whom we
 have special contracts.

Thanking the public for their lib-
 eral patronage, we remain,
TROY LAUNDRY.

SUMMONS

In the Second Judicial District Court
 of the State of Nevada, in and for
 Washoe county.

C. H. Magoon, plaintiff, vs. Inter-
 national Electric Mining Company et
 al.

The State of Nevada sends to Inter-
 national Electrical Mining Company, a
 corporation, Geo. D. Burton, F. J.
 Burton, John Doe and Richard Roe,
 greeting.

You are hereby required to appear
 in an action commenced against you
 as defendant by C. H. Magoon, as
 plaintiff in the Second Judicial District
 Court of the State of Nevada, in and
 for the County of Washoe, and an-
 swer the complaint therein within ten
 days after the service on you of this
 Summons (exclusive of day of service),
 if served in said county, or twenty
 days if served out of said county, but
 within said District, and in all other
 cases forty days; or judgment by de-
 fault will be taken against you ac-
 cording to the prayer of said com-
 plaint. The action is brought to re-
 cover judgment against you for the
 sum of \$2107.50 dollars for services
 alleged in plaintiff's complaint to have
 been rendered by him at Reno, Nevada,
 at your especial instance and request
 in the capacity of custodian, caretaker
 and watchman of certain mining and
 electrical machinery, tenements and
 real property, alleged by him to belong
 to you; said services plaintiff alleges
 to have been performed between the
 23rd day of September 1900 and the
 23rd day of February 1903; and plain-
 tiff alleges that the said sum is a rea-
 sonable compensation for his services
 aforesaid; and plaintiff alleges that
 you nor either of you have paid the
 same nor any part thereof and that
 the whole sum now remains due ow-
 ing and unpaid from you to said plain-
 tiff.

All of which will more fully ap-
 pear from the Complaint, which is on
 file in the office of the Clerk of said
 Court, at Reno, in said county, and to
 which you are especially referred.
 And you are further notified that if
 you fail to appear and answer said
 complaint, the said plaintiff will take
 judgment for the said amount besides
 interest costs of suit.

In testimony whereof, I have here-
 unto set my hand and affixed the Seal
 of said Court, at Reno, this 23 day
 February, A. D., 1903.

W. A. FOGG,
 Clerk of the Second Judicial District
 Court of the State of Nevada, in and
 for Washoe County.

MINING NEWS OF INTEREST

Gathered from Doings of the Camps Here- about

A new mining district called Atwood
 has been organized in Nye county, 80
 miles northwest from Tonopah. Water
 and wood, it is said, are in abundance.

On the Fond Treasure and Mahon-
 ing mines, near Tuscarora, develop-
 ment work is progressing. Some ore
 has been encountered already which
 contains 20 per cent of its value in
 gold.

The Bamberger DeLamar company
 are making extensive developments
 on their property near DeLamar, and
 some think it will in the future be
 again the greatest gold mine in the
 state.

At the Lone Mountain mine camp,
 near Tonopah, wood and water are
 scarce, but the population keeps on
 growing. Water is obtained from
 Silver Peak and wood from a region
 12 miles away.

The main shaft of the North Star
 mine at Tonopah is now down 650
 feet and the ledge may be cut at any
 time. Within the past year the North
 Star company has expended \$50,000
 on their property.

Two of the Reider pumps on the
 2150 level of the C. & C. shaft were
 yesterday given a preliminary run
 and proved in every way satisfactory.
 The third pump was also given a
 run and was as equally efficient as
 the others.

James L. Butler and others have
 contributed \$100,000 towards the
 erection of a milling plant at Tono-
 pah, says a press dispatch.

The Dexter mill at Tuscarora will
 begin operations on April 1st, it is said.

Over \$75,000 per month is being paid
 out in Tonopah for labor and ma-
 terials.

The Lincoln group of mines near Eu-
 reka, Nevada, has been bonded to Prof.
 Tibbels, of Salt Lake, for \$50,000.

Encouraged by favorable results
 from drillings on the Brunswick lode,
 work will shortly be started up at the
 No. 1 shaft.

The hoisting plant for the Tonopah
 City Mining claim, at Tonopah, it is
 expected, will be in position in a few
 days, when sinking on the main shaft
 will be carried on.

The Western Borax Company is
 shipping from its property in Saline
 Valley, a carload of borax a week.
 The capacity of the plant is to be en-
 larged and shipments will be increased.

On the Fond Treasure and Mahon-
 ing mines, near Tuscarora, develop-
 ment work is progressing. Some ore
 has been encountered already which
 contains 20 per cent of its value in
 gold.

The Bamberger DeLamar Company
 are making extensive improvements on
 their property at DeLamar, Nevada,
 and some think it will in the future be
 again the greatest gold mine in Ne-
 vada.

At the Lone Mountain mining camp,
 20 miles from Tonopah, wood and water
 are scarce, but the population keeps on
 growing. Water is obtained from Sil-
 ver Peak and wood from a region 12
 miles away.

Operations on the Rapidan mine at
 Como have been suspended and the
 men laid off on account of the severity
 of the weather and the depth of snow
 on the ground, which made operation
 impossible.

The main shaft of the North Star
 mine, at Tonopah, is now down 650
 feet, and the ledge may be cut at any
 time. Within the past year the North
 Star Company has expended over \$50,-
 000 on their property.

New York-Tonopah

Secretary Davis of the New York-Tonopah Company was yesterday in receipt of a letter from his brother, Frank, who is directing operations at the company's Tonopah mine. As a number of Salt Lakers are largely interested in the camp and the company, the following extracts from the letter will no doubt be read with interest.

"Conditions in the shaft change with each shot. Next week we will begin to drift and shall also continue sinking. We are now down 630 feet by the measure. The formation we now have is of fine character.

"The Fraction company has made another strike and the rock is being sacked. The ore is a beautiful ruby silver which assays from \$300 to \$600 per ton. You will remember my saying that the Fraction would be a mine if the company would only sink. Well, it is a big thing now, and the beauty of it is the strike was made only a short distance from our side line.

"The formation in our shaft is identical with that of the Wandering Boy and Fraction. From conditions I should say the ledges are not far from the shaft, as the indications for one are very favorable. We are leaving no stone unturned to facilitate the work. The dump is watched every day by outsiders and many believe that we already have the main ledge. We certainly have the making of a fine mine here and I am selfish enough to believe we deserve it. Will write you often from now on, as things are becoming highly interesting." — Salt Lake Herald.

ONE WOMAN'S EXPERIENCE WITH A GRIP REMEDY

While suffering from a severe attack of the grip and threatened with pneumonia, Mrs. Annie H. Cooley, of Middlefield, Conn., began using Chamberlain's Cough Remedy and was very much benefited by its use. The pains in the chest soon disappeared, the cough became loose, expectoration easy and in a short time she was as well as ever. Mrs. Cooley says she cannot speak too highly in praise of this remedy.
